

GRINDING BRIEFS

Brief no.	Headline
G100	Engineered Inline Diamond Dressing Tools
G101	New Super II 1A1-TMR Diamond Wheel
G102	Introducing: The Glare Gear Nut Assembly
G103	Introducing: Phonopoint Tool Holders For 1/8" Diameter Diamond Dressers
G104	Harif Grind - All's Don't Have Obsolescence!
G105	Introducing: New Diamond Tool Holders For Surface Grinders, Etc.
G106	Extension For Clearview Dressers For Up To 10" Wheels
G107	Dovetail Diamond Dressing Tool Holders and Lenses For Clearview Dressers
G108	Introducing: The Compound Diamond Dressing Tool Holder For Centerless Grinders
G109	Variable Speed Controls For Precision Grinding Spindles
G110	Tangent/Radius Grinding Wheel Dressers
G111	Super 11V9 Diamond Wheels For Grinding Single Lip Carbide Tools
G112	Ultra Precise Grinding Fixtures
G113	Super 11V9 Diamond Wheels For Tool and Cutter Grinding
G114	Super Balance Master: Hyper Sensitive Grinding Wheel Balancing System
G115	Super Vise Master: Space Age Precision Technology
G116	Real... Master Gage Blocks! Within .00005 Millionths!
G117	Super Squaring Master!
G118	Need to slot diamond, 3M CUBITRON® ceramic or CBN BORAZON® wheels?
G119	Is Squareness Important To You? If So...
G120	Want To Do Extreme Wheel Angle Forming?
G121	For big OD's and surface grinding hardened tool steels
G122	Retrofit your CNC's with VARIABLE high speed hi tech spindle systems
G123	3M Ceramic CUBITRON® Abrasives
G124	6 MILLION wheels, mandrels, saws, and more!
G125	6 MILLION wheels, mandrels, saws, and more!/Inline diamond dressing tools
G126	Vitrified Bonded CBN Superabrasives Can Increase Your Productivity!
G127	The Super CBN Flywheeler
G128	Are You Still Precision Grinding Hard Tool Steels With Conventional Grits?
G129	Are you still precision grinding hard tool steels with conventional abrasives?
G130	For Mold Makers & Polishers... Diamond Coated Cut Off Wheels!
G131	Are you grinding new hardened tool steels... on big cylindrical and surface grinders?
G132	Super diamond dressing tools
G133	Custom engineered calendered natural rubber regulating wheels.
G134	Custom Engineered Super Diamond and CBN Centerless Wheels
G135	Grinding wheels that grind and polish!
G136	Super "Chicago Style" Diamond SP Phonopoints
G137	Super CBN "Chop Grinders". For Plunge, Contour, ID, and Jig Grinding
G138	Super 9A3 Diamond Wheels
G139	HARIG Tangent/Radius Grinding Wheel Dresser
G140	Custom Engineered 11V9 Diamond Cup Wheels for Carbide Grinding
G141	Custom Engineered Super Abrasive Wheel Packs for Maximum Production Grinding
G142	St. Mary's Spin Rolls for Precision Centerless Grinding and Inspection
G143	Crystalline Cutting Machines
G144	"CUTTERMASTER" Precision End Mill Grinder!
G145	Single Lip Tool and Cutter Grinders
G146	Custom Engineered 11V9 CBN BORAZON® Cup Wheels for Grinding Hardened Tool Steels
G147	Solid Diamond for maximum total usage!
G148	Solid CBN for maximum total usage!
G149	Custom Engineered 9A3 Diamond Wheels for Grinding Swiss Carbide Tools

GRINDING BRIEFS CONTINUED

Brief no.	Headline
G150	Quality Air Products for Precision Systems.
G151	Custom Engineered Diamond Wheels for Grinding Carbide Reamers
G152	3M CUBITRON® Custom Engineered DSED grinding wheels.
G153	3M CUBITRON® Custom Engineered grinding wheels.
G154	3/32" I.D. Precision Bushings for Moore Jig Grinders, etc.
G155	For Master Tool Makers: Presenting the Super Master Series!
G156	Trick Dressers! Single Point Diamond Dressers are Trick Tools
G157	For Master Grinders: Presenting Custom Engineered Super Abrasive Wheels
G158	SS Series Side Set Diamond Dressing Tools
G159	SP Series Natural Diamond Octahedron Dressing Tools... First Quality Resettable.
G160	M Series Maccle Diamond Dressing Tools
G161	CR TR Series Crystal Diamond Dressing Tools
G162	CR Series Crystal Diamond Dressing Tools
G163	Super Diamond Truing Blocks
G164	Large Carat Diamond Octahedron First Quality Dressing Tools
G165	CR-TR Series Diamond Crystal Dressing Tools
G166	Polycrystalline Diamond Chisel "C" Type Dressing Tools
G167	Natural Diamond Chisel ND "C" Type Dressing Tools
G168	PH1 Diamond Coated Dressing Tools
G169	TR Series Diamond Crystal Octahedron Dressing Tools
G170	M Series Diamond Maccle Dressing Tools
G171	1H Diamond Tools
G172	4H Diamond Tools
G173	5H Diamond Tools
G174	DIT Dry Lube EcoBOOSTER Micro Vapor Lube System
G175	"FOUR INLINE" Diamond Dresser for Forming Centerless Regulating Wheels
G176	Precision grinding wheel adapters, flanges and spindle accessories)
G177	Precision Radius-Tangent Optical Form Dresser
G178	Formax Grease Sticks keep conventional and ceramic abrasive grinding wheels from loading.
G179	INTRODUCING: New Super 1V1 Diamond and CBN BORAZON® Burr Grinding Wheels
G180	Dumore Hand Grinder Kit Series 10-355-V
G181	Get MORE VALUE and MORE PERFORMANCE with DIT Super III 1A1-T diamond wheels
G182	Variable Speed Control is the "KEY" to increased productivity in production grinding
G183	A finish grind "quirk" if the toughest problem of all to solve!
G184	DIAMOND COATED DRESSING BLOCKS For "HIGH EFFICIENCY" dressing on surface grinders
G185	Optimize Your Single Point Diamond dressers by Resetting Them!
G186	QUICK TURNAROUND SERVICE: OPTIMIZE your DIAMOND SINGLE POINT grinding wheel dressers... RESET THEM!
G187	Introducing the NEW TCE-100 DIAMOND GRINDING WHEELS
G188	Introducing the "SPA" DIAMOND DRESSER for large and wide precision grinding wheels.
G189	The Care and Grinding of Center Holes!
G190	DIT CENTER SERVICE Are Your Centers Scored or Out of Tolerance?
G191	Note: Diamond Dressing Tools for J&S Fluid Motion Tangent/Radius Dressers Require 7/16" Diameter Shanks.
G192	Glazed Grinding Wheels Cost You Money!
G193	Super Die Sinking- Solid Carbide Tools
G194	5 X 5 Series Diamond Dressing Tools for Production Truing and Dressing Grinding Wheels
G195	Super "DS" Solid Carbide Spiral Tapered Die Sinking Cutting Tools
G196	3M Ceramic CUBITRON® Abrasives for Grinding Hard Steels
G197	The Super 1A1-T Diamond Grinding Wheel

GRINDING BRIEFS CONTINUED

Brief no.	Headline
G198	Full Ball Natural Diamond Dressers "FB" Series
G199	Diaform Natural Diamond Form Dressing Tools
G200	Indexing Diamond Cluster and Single Point Dressing Tools
G201	"HSHP" Hand Set Diamond Clusters for Big and Wide Wheels
G202	"IED" Inline Engineered Natural Diamond Dressing Tools
G203	Hex Head Diamond Dressing Tool Shanks
G204	Balance and SFPM (Surface Feet Per Minute) is the "New Window" in Precision Grinding
G206	Side Set Natural Crystal Diamond Dressing Tools "SS" Series
G207	High frequency variable speed grinding and machining spindles
G208	The "Big Picture" in Precision Grinding with Diamond and CBN BORAZON® Wheels
G210	Increased Productivity for Precision I.D. Grinding!
G213	DIT Single Point Natural Diamond Dressers
G214	Single Point Natural Diamond Dressers
G216	Wet and/or dry grinding with CBN BORAZON®
G219	Variable speed spindle control for precision grinding applications
G221	Mounting and truing grinding wheels on bench grinders
G222	Precise High Frequency Variable Speed Spindles
G223	CFS FORMSET® synthetic diamond chisel dressing tools
G224	Introducing the new type 1A1 "Ruby" rougher/finisher
G225	Upgrade your present diamond wheel with the new and latest "Ruby" 1A1-T
G226	Diamond Dressers "Hand Set" for Large and Wide Conventional and Ceramic Abrasive Precision Grinding Wheels
G228	Diamond Wheel Truing and Forming Machine
G230	Custom Engineered Super 11V9 CBN BORAZON® Wheels for Tool and Cutter Grinding
G231	When you precision grind do you use
G232	Introducing the new PCD single point dresser
G233	Balance: The critical step to grinding excellence
G234	Diamond and CBN BORAZON® mandrel starter kits
G235	Precision Grinding Requires "Turnkey" Solutions and Results
G236	DIT Grinding dogs designed to hold and turn the workpiece for cylindrical grinding
G237	Abrasive segments and shapes Conventional and 3M ceramic abrasives for vertical spindle grinding machines
G227	Diamond Mesh Dressing Tools for Dedtru Centerless
G239	The new 716 series diamond dressing tool
G240	Premium Heavy Diamond Compound
G241	DIT/NICO Super Spout Installation and Ordering Information
G243	DIT Superabrasive Diamond & CBN Grinding Wheels for CNC Grinding
G244	Precision grinding mandrels and wheels for jig, internal, and CNC precision grinding applications
G245	Announcing the development of the NEW Series 1107 Superabrasive Precision Grinding Wheels for CNC round tool manufacturing
G246	Ultra Precise Grinding Systems
G247	Natural Diamond Cluster Dressers
G248	Internal Bonded Diamond Mandrels
G251	Internal Bonded CBN Mandrels
G254	Superabrasive Profiles
G256	Surface finish when diamond wheel grinding - wet
G257	Truing Large Centerless Diamond Grinding Wheels
G258	Diamond Wheel CAUTION
G259	Precision Grinding Wheel Loading, Glazing, and Burnishing
G260	DIT Drop Mallets

GRINDING BRIEFS CONTINUED

Brief no.	Headline
G261	DIT Coherent Jet Coolant Nozzle Assembly for Best Surface Grinding
G262	Diamond needle and riffler files
G263	Portable CO2 Machining Cooling System
G264	Portable CO2 Grinding Cooling System
G265	1A1-T Superabrasive Series CBN and Diamond Precision Abrasive Grinding Wheels.
G267	3A1 Series Superabrasive Wheels
G268	Dressing Superabrasive CBN and Diamond Wheels, Segments, Saw Blades, and Mandrels
G269	Precision Abrasive Grinding of Stainless Alloys, Nickel, Aerospace Metals, and Strange Metals

MACHINING BRIEFS

Brief no.	Headline
M100	Super IGT's for jig grinding... M42 ceramic coated
M101	For Master Tool Makers: Presenting the Master Tool Series!
M102	Cluster Technology!
M103	N Series Ceramic Titanium Coated Solid Carbide Routers For Fiber Composite Materials
M104	FM Series "Quad" Ceramic Coated Solid Carbide Routers (Patented) For Fiber Metal Composites
M105	Solid Carbide S Series Sizing Drills (Patented)
M106	Solid Carbide BD Series Bottom and Form Shaped Tools
M107	Super Solid Carbide Tooling That Works!
M108	Super Quad Layer Ceramic Coating for Solid Carbide Cutting Tools
M109	Does Machining Hard Tool Steel at 400 IPM (inches per minute) Interest You? And with your present CNC equipment?
M110	Super CG Carbide Solid Carbide Tools for Composite Machining
M111	Retrofit your CNC's with Variable high speed hi tech spindle systems.
M112	OPTIMIZE your solid carbide internal jig grinding tools (IGT) by regrinding and MAX 42 COATING THEM!
